03-V2610 IVDB	Beights Development Corporation Mountain Valley Subdivision Attn: Mr. Gaylon Beights 800 East Jefferson Street Charlottesville, VA 22902	A proposed 566 acre subdivision development which will require the construction of 9 stream crossings, one a span bridge with no jurisdictional impacts, and 8 others. Wetland impacts will also be associated with the project. A total of approximately 0.33 acres of wetland impacts and approximately 1,156.5 linear feet (0.12 acres) of both perennial and intermittent stream channel will be impacted by the project. A total of 0.45 acres of unavoidable jurisdictional impacts are proposed for the project. Mitigation for the wetland and stream impacts will be a combination of preservation/enhancement, and purchase of wetland bank credits.	Trib. to Biscuit Run	1/27/2004
04-V0191 IVTA	University of Virginia Facilities Management P.O. Box 400726 Charlottesville, VA 22904-4726	Construct the "North Grounds Connector Road" for the University of Virginia requiring the construction of two stream crossings. Crossing 1 will impact approximately 484 linear feet and approximately 2,752 square feet; Crossing 2 will impact approximately 150 linear feet, and approximately 650 square feet. Total impacts to headwater streams will be approximately 634 linear feet, and approximately 3,402 square feet (0.08 acres) of PSS wetlands. Mitigation is offered by purchasing 0.12 acres of wetland mitigation credits from the James River Mitigation Landbank located in Goochland County.	Trib. to Meadow Creek	2/9/2004
04-H0045 IVTB	Mr. Donald Bridge 1341 Shenandoah Ave. Waynesboro, VA 22980	Request to remove accumulated silt/cobble from approximately 300 feet of stream channel impacted by recent hurricane Isabel. Most of channel is choked and the capacity reduced to overbank flooding on normal rain events. Water potentially floods cabin and buildings as well as a farm field.	S. Fk. Back Creek	3-12-2004
04-H0047 IVTB	Town of Monterey Attn: Ms. Janis Warner, Mayor Post Office Box 460 Monterey, Virginia 24465	Replace two existing culverts by upgrading to larger size to accommodate high flow conditions. Remove accumulated debris, sediment and enlarge approximately 100 linear feet of channel between the two culverts to reduce overbank flooding conditions. Project to help reduce flooding around buildings and homes along the street and creek crossings.	Trib. to West Strait Creek	3-15-2004
04-V0148 IVTB	County of Greene Attn: Mr. Julius Morris, County Admin. P. O. Box 358 Stanardsville, VA	Construction of a new WWTP facility with force main outfall to the Rapidan River. Construction of one new wastewater pump station with new force main, and expansion of three existing wastewater pump stations and their force mains. Purpose to provide improved wastewater collection and treatment services along the Route 29/Route 33 corridor in Greene County. Temporary coffer dams may have to be used to bed pipe in some instances.	Trib. to White Run	3-23-2004
03-H0017 IVDB	Old Trail Mixed-Use Development Attn: Gaylon Beights 800 East Jefferson St. Charlottesville, Virginia 22902	Phase 1: Proposed construction of utility installation resulting in the crossing of wetland, and intermittent and perennial stream channels. Approximately 0.02 acres of impacts will be permanent due to riprap used around bedded pipe to prevent scour impacts. All impacts areas will be restored to preexisting bottom contours. Phase 2: Proposed construction of a mixed-use residential and commercial planned community. There will be a total of two temporary impacts and seven permanent impacts. The two temporary impacts and three of the permanent impacts are associated with the rehabilitation of an existing farm pond and adjacent emergent wetlands. Other permanent impacts are associated with road crossings and a biofiltration best management practice within an emergent wetland adjacent to Lickinghole Creek required by Albemarle County. Total permanent impacts are 0.12 acres of wetland/waters including 310 linear feet of stream. Temporary impacts are approximately 0.15 acres of emergent fringe wetland and 0.46 acres of open water. Mitigation will be offered by contributing an in-lieu fee to the Virginia Wetland Restoration Trust Fund at the following ratios: 2:1 for forested; 1.5:1 for scrub-shrub; 1:1 for emergent and 1:1 for stream impacts.	Slabtown Branch	4/26/2004
04-H0090 IVTB	Mr. Roy C. Simmons, Jr. 101 Rutherford Lane Stuarts Draft, VA. 24477	Repair flood damage to approximately 100 linear feet of stream channel. Project will require the removal of accumulated cobble/sediment and the placement of large rock against the bank where needed.	Johns Run	4/28/2004
04-H0026 IVTA	Faulconer Construction Company Attn: Mr. Jack Sanford 2496 Old Ivy Road Charlottesville, Virginia 22903	Proposed stream crossing of a perennial headwater stream impacting approximately 218 linear feet and approximately 0.04 acre of emergent wetland and stream channel. Project is for a commercial development.	Trib. to Ivy Creek	5/3/2004
04-H0138 IVTA	Claybrook Associates, LLC Attn: Mr. Don Franco P. O. Box 5207 Charlottesville, VA 22901	Proposed construction of the Claybrook Subdivision requiring the crossing of a perennial stream with a culvert crossing. Approximately 90 linear feet of stream channel will be impacted including approximately 260 square feet of wetlands (0.006 acres). The remaining stream channel and wetlands will be protected in a common area.	Trib. to South River	7/6/2004
